

Siberia. One of the most beautiful regions of Russia. The untouched area is unique for its mountains, animals and fauna. Eastern Siberia is the taiga region, where the taiga zone extends to the borders with Mongolia, covering an area of almost 5 million square kilometers.

Lake Baikal is a unique place on our planet: it is the deepest and cleanest reservoir in the world. Water in the lake is transparent, so you can see its bottom. An interesting fact: if you catch all the fish from the lake and distribute it to each resident of Russia, everyone will get 1 kilogram.

Angara is a river of Eastern Siberia, it's the only river flowing from lake Baikal.

Irkutsk is one of the oldest and largest Siberian cities and the main city of the Irkutsk region. The city's economy is based on industry.
